

Justin Berry

**Vice President of Population Health
Conifer Health Solutions
Enico, California**

Justin Berry is Conifer's vice president of population health (PH). In this role, he is responsible for PH teams including clinical delivery, quality management, client delivery, data operations, product support and training. He manages all client relationships, sets the direction for Conifer's service offerings, and works closely with all internal and external teams to ensure the highest quality outcomes and financial performance for Conifer's population health clients.
